Profile

Passionate and eager Software Developer. Quick learner and pleasant coworker. Basic knowledge of many technologies listed below. Expanding knowledge daily. Current front-end, aspiring full-stack.

Employment History

Physician's Assistant at Conway Orthopedic and Sports Medicine Clinic, Conway AR

05/2010–12/2012

I was responsible for basic patient care (prepping them for the doctor). I managed the clinic's budget with Excel. I oversaw the medical supplies inventory. I led the project of transferring paper records to digital.

Manager at Alchemy, Singapore SG

12/2017–11/2018

During a year overseas, I managed a bar in Singapore. I tended bar, managed inventory, entertained patrons, and led advertising.

Caregiver at Group Living LLC, Arkadelphia AR

12/2018–04/2020

As a caregiver, I was responsible for the patients' medical needs as well as assisting them with any and all activities of daily living. I worked with adults with developmental and intellectual disabilities. This, combined with my experience at the bar, has really developed my interpersonal skills, patience, and attention to detail. Administering medication had to be extremely precise with zero margin for error.

Caregiver at E&E Developmental Services, Richardson TX

04/2020–05/2022

This caregiver job was more extensive and demanding than the last. I lived in - and managed - a group home full of adults with autism. I helped them manage their diets and taught them how to budget. I administered their medication and taught them life skills. It was very demanding but equally rewarding. It was too time consuming to realistically start a family, which is why I changed course to web developing.

Education

B.S. + Spanish Minor, Ouachita Baptist University, Arkadelphia AR

06/2014–12/2017

- Dean's List
- 3.7 GPA

Certified Full-Stack Developer, Southern Methodist University, Dallas TX

08/2022–11/2022

Graduated with a 4.0. It was an extremely rigorous and fast-paced course that taught me a variety of skills that I'm constantly honing since graduation. It was a great foundation for this career in web development.
